Manual Pan brakes and Folders:

Capacities:

- 1250mm, 1860mm, 2470mm, 3085 and 3675mm
- Maximum 2.0mm Mild steel capacity.

Models:

- Manual operated (Standard)
- Hydraulic operated (Single and three phase)

Apron only Pan brakes and Folders:

Capacities:

- 1250mm, 1860mm, 2460mm, 3070mm and 3710mm.
- Maximum 2.0mm Mild steel capacity.

Models:

- Standard electronic control system.
- Hand valve operated

Hydraulic Pan brakes and Folders:

Capacities:

- 1250mm, 1860mm, 2500mm, 3070mm and 3710mm.
- Maximum 6.5mm Mild steel capacity.

Models:

- Standard electronic control system.
- 2 - Axis (Back gauge system)
- Hand valve operated

Guillotines

Light material Guillotines:

Capacities:

- 1020mm, 1250mm, 1860mm and 2460mm
- Maximum 1.6mm Mild steel capacity.

Models:

- Treadle operated (Standard)
- Pneumatic operated
- Hydraulic hand valve operated (Single and three phase)

Under driven hydraulic Guillotines:

Capacities:

- 1250mm, 1860mm, 2500mm, 3070mm and 3710mm
- Maximum 6.0mm Mild steel capacity.

Models:

- Standard electronic control system.
- Hand valve operated

Over driven hydraulic Guillotines:

Capacities:

- 1250mm, 1860mm, 2500mm, 3070mm, 3680mm and 4020mm
- Maximum 12.0mm Mild steel capacity.

Models:

- ODB6 – Overdriven bar clamp.
- GF – Standard overdriven Guillotine.
- VR – Variable rake Guillotine.
